Mayberry Meldrum & Anderson

Dear Jeannie,

I have to say that you are one fantastic human being and more importantly an incredibly rare accountant.

I would never have thought I would actually say that "I enjoy going to see our accountant" but I know I speak for both myself and business partner and we do.

You are a beacon of light to our business and I know under your guidance Bird Dog will accomplish big things.

Due to that confidence in you we have introduced business associates, friends and family and all of them agree that you are fantastic.

Thanks for your guidance and dealing with the stuff like BAS (think its a fish).

Warmest Regards,

Rich Muir
